1) I'm **not sure** about what I'm going to do in the future. I **may** become a vet or work in an technology company as a coder. These are options. **Maybe**, I can do something different.

2) We should use power of sun instead of fossil fuels to leave a beautiful place for other people.

3) I definitely want to run a restaurant in the future, because my only passion is cooking different dishes and making delicious meals. I'm sure that I will be a famous cook.

4) In my opinion, weather conditions will get worse in the future. We will see warmer winters and colder summers. Endangered animals will become extinct because of these changes.

5) Robots will become much smarter than us and they'll control all the world by using their minds.

**3. Choose the correct bold words. (4 points each.)**

1- The **communication** / **food** system in future will be much better, faster and cheaper. I think people call or get in touch with each other much easily with smart microchips.

2- I just want to be **famous** / **healthy** in the future. I go to bed early, exercise every day, eat lots of fruit and vegetable, have a balanced diet to keep fit and read a lot to learn how to live longer. In the future, I will probably buy a house in a village and live happily with my pets.

3- In my opinion **family life** / **transportation** will change a lot in the future. We will have driverless cars, use private jets or flying objects for travelling. That may sound impossible right now, but software engineers and scientists try to make that possible.

4- My parents always prefer spending time in quiet, green and less crowded places, that's why they bought a house in the **city center** / **countryside** and started enjoying a calm life there.

5- We got stuck. It is **traffic jam** / **disease** again! There are hundreds of cars here!!! Help!!!!

**4. Match the questions with the correct answers. (3 points each.)**

1. What is your dream job?

2. Who can change the world more than anyone else?

3. Can you tell me one example of high technology we will have in our houses?
